Salt Lake City, UT*

WEATHER KEY POINTS

11/09/21 - 11/15/21

Tuesday

- A storm system will continue to impact much of northern and central California through the afternoon hours today, bringing the following impacts:
 - Gusty winds of 40 across the Sacramento Valley, while local gusts of 50-70 mph occur over the Sierra and far northern California higher elevations
 - Heavy snow above 3,000 feet over far northern California and around 5,000 to 7,000 feet across central California, creating travel impacts for some passes
 - Precipitation will wind down quickly through the afternoon and evening hours, with no major burn scar impacts anticipated

Wednesday - Monday

- Milder and drier weather will return statewide through late week and the weekend, with some periods of dense fog possible across much of the Central Valley for mid and late week
- Locally gust offshore Santa Ana winds are forecast across southern California Thursday through Saturday, with gusts of 35 to locally 55 mph
 - These winds will bring locally elevated to critical fire weather conditions
